WEIGHTS ARE FOUND TO BE 75 POUNDS SHORT

The officials of the city health department, assisted by J. M. Condie, state inspector, are now making an inspection of weights and measures in the different grocery stores, meat markets, coal yards, milk depots, commission houses, etc., and reports thus far received indicate that this work on behalf of the public was highly necessary. At one of the coal yards it was found that the scale was 75 pounds "out," in favor of the coal merchant and other discrepancies have been discovered.

In connection with the visit of Inspector George Shorten to the J. H. Daniels grocery store to collect the fee charged by the state for scale testing, it was found necessary for the inspector to swear out a complaint against the proprietor for his refusal to pay the fee.

CHINESE STUDENTS GET A GLIMPSE OF OGDEN

The Chinese students' special train expected to arrive in the city last night did not arrive until 8:40 a. m. today. The train consisted of six cars, occupied by 116 students, among them being 25 young ladies. The students came direct from China, via San Francisco and left Ogdien for Chicago at 9:20 a. m. During their forty-minute stop at Ogdien, they were directed to points of interest in the city by Depot Master John Shields and passed the time patronizing the fruit stands and taking pictures of the depot grounds and buildings and other places near the depot. Both the male students and co-eds were dressed in the natty styles of American youths and maids of similar age all spoke excellent English.

While here they created considerable interest around the western part of the downtown district.

The Orientals are to attend school this winter at the University of Chicago.

PRISONER FROM THE "JUNGLES" IS IN POLICE COURT

H. E. Gallagher, a local waiter, was arrested at 12:15 a. m. today by Sergeant Layne and Patrolman Mangel and locked up on a charge of disturbing the peace by beating his wife. He pleaded guilty to the charge this morning. After hearing the story of the trouble rehearsed by Mrs. Gallagher, the judge imposed a \$25 or 25-day sentence on the defendant. In addition to a lecture and some advice as to future behavior.

According to the story of Mrs. Gallagher she was quite badly beaten last night by her husband and the present instance was only one of several similar experiences. Gallagher seemed repentant after the judge had concluded his lecture and promised to keep the peace and to treat his

TAILORING AND CLEANING.
Gloss removed from clothing. Will look like new when removed. All kinds of ladies' and gent's garments cleaned. Gent's garments made to order. Will please the most particular. H. Winter, The Tailor, 2255 Washington avenue, Ogdien, Utah.

wife in a proper manner in the future.

August Stine, a drunk, was given a suspended sentence. He was arrested by Patrolman Blackburn. "Little" Scotty, a local express-wagon driver, was given a three-months' suspended sentence upon his own suggestion. He was arrested for driving a horse upon the public thoroughfare while under the influence of liquor. Before the judge passed sentence, the defendant stated that he suffered so much last night in jail that he had decided to quit drinking for the remainder of his life.

The case of the City vs. David Barnes was taken under advisement. Barnes was charged with trespass. Officer Blackburn testified that he had seen him on the streets a number of times, once when he was trying to peddle some paint brushes and another time when he was trying to peddle some jewelry and a package of tea. He also characterized him as a "very idle sort of a man." Detectives Charles Pincock and George Wardlaw testified that Barnes admitted to them that he had been sleeping down in the "jungles" near the Ogdien river. The defendant said that he was an old soldier and had been sleeping out of doors for the past two years, at his own volition, and did not believe that there was a law that would prevent a man from sleeping in an open field where he was troubling no one. He had been employed with a traveling carnival and got stranded at Park City. The things he was trying to sell, he said, were his own legitimate property.

CHANGE OF VENUE IN SHORT WEIGHT BUTTER CASE

When the case of the State vs. Joseph Barker of North Ogdien was called this morning in the municipal court, the attorney representing the defendant filed an affidavit for a change of venue, which was granted. The complaint against Mr. Barker alleges that he was selling short weight butter on July 17, 1914, it being found by the inspectors that the cartons supposed to contain a pound only contained 13 ounces. The setting of the case has been delayed for nearly two months and when the change of venue was asked this morning, County Attorney David Jensen said that the action was a complete surprise to him and that another delay would cause great inconvenience to his witnesses, three of whom, State Chemist Herman Harms, State Food Inspector William Hansen and State Sealer of Weights and Measures P. W. Salmon, had come up from Salt Lake for the special purpose of being at the trial.

The attorney for the defendant stated that he had indicated that a change of venue would be asked when the case was brought up several weeks ago, and this fact was recalled by the judge and by George Shorten, a witness for the prosecution. The county attorney was not in court at the time. Judge Reeder decided to grant the change of venue and a judge is to be agreed upon later by the two attorneys.

"TREY O' HEARTS"

Hundreds of people saw "The Trey O' Hearts" last night at the Lyceum, and were highly pleased with this wonderful production. The fire scenes, the waterfalls, the miraculous escapes from death, will keep you thrilled from start to finish. Ask those who saw it yesterday. Shown today from 11 a. m. to 11 p. m.—Advertisement.

Miss Ethel Lisblat was arrested recently and fined \$20 in the Chicago police court for robbing a boat in which she and three young men were rowing.

COMPARISON OF THE ROADS TO BE BUILT OGDEN MAN INVENTS MACHINE TO KILL THE WEEVIL

In these times of soaring prices in foodstuffs most people are looking for markets where the best bargains can be had and they also are looking for homes in cities where lower prices prevail. The most startling increases in prices in Ogdien the past month have been on flour and sugar and it is possible that the end is not yet. Meats in general have remained at about the same figure, although the prices still are too high to suit the housewife.

Ogdien butchers state that they do not anticipate any marked increase in the price of meats, except perhaps, in pork cuts. They also say that they have no disposition to increase prices and will not do so unless the wholesale dealers charge more. A price list furnished by the Washington and Independent markets indicates that prices in Ogdien are from 5 to 10 per cent lower than in Salt Lake on most of the cuts of meat. Following is a comparative retail price list for both cities, given per pound:

	Ogdien.	Salt Lake.
Beef—

BANKING LAW AMENDED.
Washington, Sept. 11.—An amendment to the bank law permitting state banks and trust companies with a capital of \$25,000 and 20 per cent surplus, or more, to issue federal currency under the Federal Reserve act, was passed today in the senate.

COTTON EXEMPTED.
Austin, Tex., Sept. 11.—The lower house of the state legislature today adopted a resolution from taxation all Colquitt to exempt from taxation all cotton bought under the "buy a bale movement" at 10 cents per pound. Reports indicate about 3000 bales of cotton ready have been purchased in Texas.

Acting District Forester A. C. McCain has returned from an extended inspection trip to Jackson Hole, Wyo., and Escalante in southern Utah. He was accompanied by Road Engineer Merrill of the Washington office and the purpose of the trip was to examine proposed road districts. Mr. McCain states that the forest service will build roads in both districts and that work actually has begun. The road in the Jackson Hole country, on which the forest service proposes to expend money extends from Victor to Wilson and the Escalante road extends over the mountain east of that place.

CITIZENS CALLED TO SERVE AS JURORS

The following talesmen have been summoned to serve as jurors in Judge James A. Howell's division of the district court for the September term of court:

John K. Spires, Paul M. Lee, W. A. Koldewyn, Thomas B. Farr, J. J. Gillis, C. J. Humphris, William C. Deamer, William J. Stephens, Jr., Wallace W. Boyle, David C. Lawson, James H. Stewart, John C. Sullivan, O. H. Hickshooper, Joseph L. Carlson, William H. Johnson, Wilford F. Madison, Irving W. Jones, Charles B. Murphy, William F. James, Lawrence Taylor, Fred J. Palmer, J. M. Forristall, Andrew Bingham, Owen Halverson and Ianthus P. Richards.

Coming to the Ogdien, "The Last Volunteer," greatest war drama ever produced.—Advertisement.

SUMMARY OF WAR SITUATION

Official German advice received in Washington declares that the Germans held their own in two days' fighting east of Paris, capturing 50 guns and several thousand prisoners, but retired the right flank on the advance of strong hostile columns.

Earlier dispatches from Berlin represented the Germans as having lost fifty guns and several thousand prisoners.

The French embassy at Washington has received reports from Bordeaux of marked advances against the German right wing. These appear to be based on statements by the French ministry of war made public last night. Today it is announced in Paris that the Germans have retired in some places 40 or 50 miles. French, where the Germans appear to have made little if any progress since the reverse at Allenstein. They are now reported to be bombarding the strongly fortified capital of Koenigsberg. There are indications, however, that the Germans are arriving in force and moving toward Koenigsberg. A dispatch from Petrograd says that the Germans from the west concentrated on the banks of the river Alle and are marching in an easterly direction while the Russian advance guard is retreating. The Alle river flows north and east in a direction southeast from Koenigsberg.

A general retirement of the Germans east of Paris continues, according to a statement this afternoon by the war information bureau in London. It is said that British troops have 1500 prisoners and several guns. A dispatch from Rotterdam says that an official German communication denies that the fortress at Przemyel is surrounded by Russians or that the Russian forces are advancing on Cracow, as has been represented at Petrograd and London.

Renewed activity by the German navy in the Baltic is indicated in reports from Berlin and elsewhere. Nish reports that Serbian forces have occupied Semlin, a town of Austria-Hungary from which the Austrians began their original attack on Serbia. Serbian and Montenegrin troops have effected a junction and begun a march on Sarajevo, the capital of Bosnia.

Eight French physicians arriving in Rotterdam after attending both French and German wounded declare they found no evidence of the use of dum-dum bullets by either side.

The Turkish minister of war, Enver Pasha, is reported from Athens to have been wounded in a revolver duel with Crown Prince of Turkey. Earlier advices from Constantinople stated that Enver Pasha was confined to his home, suffering from blood poisoning.

A dispatch from Basel, Switzerland, says that the French have recaptured Mulhausen.

SOCIETY OF EARLIER DAYS.
Miss Cleopatra Ames has as her guest Mr. Mary Antony of Rome. Miss Louella Borgia has sent out invitations to a poison party at her home on the Palatine.

C. U. Child of this city has shown a Standard representative a cut and plans of a machine which he has invented for the destruction of alfalfa weevil and for cultivating alfalfa fields. The machine consists of two drive wheels, similar to those of a mower, which revolve on an axle, to which are attached a set of spring drag teeth, behind which is a revolving steel wire brush. The brush which revolves very rapidly, is operated by means of gearing attached to main drive wheels.

A steel comb, attached to a frame over the brush, keeps it clean from all trash and dirt that might otherwise accumulate.

By means of a clutch the machine may be thrown in or out of gear at the will of the operator. The drag teeth and brush can be raised clear of the ground by an adjustable lever, where it is desired to move the machine from one field to another, or, by the same means, the teeth and brush may be pressed heavily, or lightly, into the soil as occasion may require.

This machine might also be used in the cultivation of orchards, as it would do the work just as thoroughly and leave the ground in better shape than the ordinary spring-tooth harrow, and the draft would not be so heavy.

Mr. Child has applied for a patent on his machine and expects to have some of them in operation next spring. He first applied for a patent a year ago, but since then has made several improvements.

GENERAL RETIREMENT OF GERMANS

(Continued from Page 1)

and Montmirail, they repulsed the army and even themselves advanced, but on receipt of news of the arrival of strong hostile columns the left had to retire. It was not pushed by the enemy. The German troops took fifty guns and some thousand prisoners.

Turning Movement Defeated.
London, Sept. 11, 4:57 a. m.—The correspondent of the "Times" at Bordeaux sends the following:

"It is now beyond doubt that the German turning movement to the southeast of Paris has been defeated and there is a growing hope that the allies' left, which has borne a rain of the enemy's blows since the fighting at Mons began, is now about to take its revenge.

"The Germans have been fighting desperately to guard their line of communication, which is in considerable danger from the allies' left. They have been forced to retreat before the onslaught of the British and the withdrawal of the German right is bound to assist the French in forcing back the center unless the Germans make a desperate stand to find themselves obliged to follow the imperial chancellor's advice and 'back' their way through.

"The German check in front of the Meaux and Verdun line has had its effect throughout the field of operations. On the extreme French right the enemy's division, bearing down upon Nancy, has been thrown back behind the forest of Champenoux."

Bordeaux, Sept. 11, 1:35 p. m.—Advices received here from an authoritative source in Antwerp declare that Field Marshal Von Der Goltz, the German military governor of the occupied portion of Belgium, attempted yesterday to open negotiations with a member of the Belgian cabinet who had remained behind at Brussels. No importance is attached to this effort and the Belgian government ignored it.

GERMAN FLEET BUSY IN BALTIC

Capture and Sink Russian Merchant Steamer—Passengers and Crew in German Fort.

Berlin, via Copenhagen and London, Sept. 11, 12:10 p. m.—The German fleet is active in the Baltic. It is reported to have invaded even the gulf of Rostov, where it captured and sunk a Russian merchant steamer, the Uleborg. This vessel was in Finnish waters, in other words, behind the barrier formed by the Aland Islands, which has been considered impassable for the sea forces of Germany.

A German torpedo boat stopped the Uleborg and took off the crew and 54 passengers, including 35 Englishmen. She then opened fire on the steamer, which sank in five minutes. The passengers and crew were brought to a German fort, where citizens of hostile countries are being interned as prisoners of war.

Iron Cross for Aviators.
Newspapers report that the decoration of the Iron Cross has been awarded to a number of German aviators, including the well known civilian pilots Helmuth, Hirth and Inokid. Emperor William has bestowed the order of the Iron Cross, first and second class, also on Prince Frederick Leopold of Prussia, but it is not announced whether the recipient is the father or son of the same name. It probably is the son, in honor of his

TURK EXPLAINS TO SEC. BRYAN

Makes Clear Meaning of Abrogation of All Conventions and Capitulations.

MISSIONS AND SCHOOLS

All American Institutions in Turkey to Be Protected by Ottoman Law.

New York, Sept. 11.—The Turkish ambassador, Arustem Bey, explained in detail to Secretary Bryan today the meaning of Turkey's abrogation of all conventions and capitulations restricting the sovereignty of the porte.

The ambassador made it clear that American missions and schools would continue to be protected by Ottoman law, although American citizens would lose their extra-territorial rights in civil and judicial cases. The capitulation, which had been abrogated, he said, would not effect the existence of the missions which had been recognized previously by Turkish law. The ambassador said he would issue a statement later interpreting Turkey's action.

As Turkey's notification was of a general character, without specifying particular treaties, officials had not been sure of the extent of the action.

Berlin Gives German Version.

Washington, Sept. 11.—The German embassy today received the following message from Berlin: "The three entente powers, apprehending Turkey's intervention in favor of Germany and Austria, expressed to Turkey their readiness to consent to the abolition of capitulations in case of Turkey's neutrality during the present."

"Turkey replied that her neutrality was not to be purchased, and drawing the consequences from the notification of the entente ambassadors, who issued tirades against revoking the capitulation."

STATION PICKS UP AEROGRAMS

Messages Are Flagrant Violation of Laws Defining Neutrality—Admiral Reports.

San Francisco, Sept. 11.—Rear Admiral Charles F. Pond, commandant of the Twelfth United States naval district, made public yesterday the contents of several aérograms picked up by the United States radio station at Cape Blanco, August 24, which he terms "a flagrant case of the violations of the laws defining neutrality."

The wireless conversation was carried on between Captain Bridget of the Standard Oil company's American registered steamship Richmond and Captain Hayward of the Kennebec, another steamer of the same line, but flying the British flag. Captain Bridget's message was:

"How far from the Columbia river are you? Have you had any news? Can I do anything for you? War between Germany, England, France and Russia. Think Japan declared war on Germany yesterday. Two German cruisers off San Francisco."

Captain Hayward's reply picked up twenty-seven minutes later said:

"Thanks for message. Just now off Columbia river."

Admiral Pond cautioned Captain Bridget on his arrival here not to violate American neutrality again.

VERY EASILY FIXED.
Bank Cashier—"I'm sorry, madam, but you'll have to be identified by some one I know."
Well Dressed Woman—"Oh, very well; I have a friend waiting outside in the machine. I'll bring her in and introduce you to her.—Life.
